## Best Practices

The best practices for year are:

A) Empowerment of girl students

B) Vivekvahini

### **Best Practice No 1:**

#### **1) Title: Empowerment of girl students**

#### **2) Goals:**

1. To promote Gender sensitization and awareness of Women Empowerment.
2. To provide counselling and guidance for Competitive examinations and Career advancement.

#### **3) Context:**

· Girls who are out to explore the world and enter public life are faced with several challenges due to both external factors in the society, as well as internal factors such as attitudes, beliefs, awareness, and thinking. But due to the deep- rooted patriarchal mentality in the Indian society, women are still victimised, humiliated, tortured and exploited. Even after almost seven decades of Independence, women are still subjected to discrimination in social, economic and educational field The risk-taking nature typical of this young phase of development, and the drive for independence and decision making can put girls in risky situations and dilemmas. Mature decision making and appropriate action/ behaviour are qualities that need to be developed in order that they take responsibility of their own wellness and safety. Wrong concepts of beauty and fitness lead the girls to follow an inappropriate nutritional pattern, adversely affecting their health. These issues too need to be addressed When girls have education, legal protection, health care, and access to training and job skills, they can thrive. And if they thrive, everyone around them thrives, too. Girls are agents of change. They play a crucial role in solving the most persistent development problems facing the world today. When a girl gets a chance, gets educated, stays health, marries when she chooses, and raises a healthy family, she can raise the standard of living for herself, her family, her community, and her country.
