

## **Vision and Mission of the institution:**

### **VISION:**

To provide quality education in the drought –stricken rural region to create social and scientific awareness among students for maintenance of national integrity and overall development.

### **MISSION:**

Imparting value education.

Motivating students to participate in various activities to develop their personalities.

Creating awareness of social responsibility through various social and educational activities.

Generating leadership qualities through various programs.

In order to fulfill the vision statement of the institute, the administration sets the goals for curriculum, overall development of student, quality education and national integration to make our student globally competent with human values. Our principal has fulfilled all recommendations made by the PEER team as like extension of library and laboratories, UGC indoor sport facility oriented badminton hall, NIRF ranking in the rank band 150 to 200, Academic administrative audit and introduced various certificate courses.

### **Nature of governance:**

The college has evolved a system of participatory governance through the process of delegation and decentralization. The leadership of the institution is committed to ensure the participation of all stakeholders by the way of effective functioning of various statutory and non-statutory bodies of the college.

Participatory governance in administration is achieved by constituting the governing body, examination committee and finance committee as recommended by UGC. Besides, local management committee has been formulated in order to maintain the functioning of the institute in tune with mission statement of the institute.
