Study tour report

B. Sc. I 2015-16

Department of Botany organized a field visit for B. Sc. I students as a part of curriculum at 08.02.2016 In this tour 43 students and 3 teachers involved.

Objectives

1. To study different life forms of plants in the nature.
2. To make the students aware of natural resources and environment.
3. To understand natural phenomenon, manipulation of nature and environment in the benefit of human beings.

That place is biologically very important as a part of Western ghat. First we visited to Mahabaleshwar observed the different plants few of them they are rare endangered and critical, some of them medicinally useful, some of them they are exotics. How natural resources use sustainably. Then we visit different localities at Dapoli University then visit to Koyananagar Later on come back to Aundh.

Outcomes

1. Students achieve the knowledge about the different plants found in these localities.
2. Students make the list of plants found in these localities, note important unique feature of plants and their medicinal uses.
3. Students achieve the knowledge of sustainable agriculture. After visiting these two localities we safely return to Aundh.

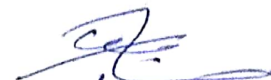

Please accept the same.

Thanking you.
