About the Course

The use of Remote Sensing, Geographical Information System, Global Navigation Satellite System and associated geospatial technologies is increasing rapidly, creating an urgent demand for trained manpower. IIRS caters the Ku-Rang Faculty of INSAT-ACR, an ISRO Satellite and Internet, for conducting Distance Learning Programme to primarily complement the educational programmes of the Indian Universities. The target group includes students at undergraduate/postgraduate level and faculty/researchers at different universities/institutions. Under its Outreach Programme, IIRS has established its own Teaching and studio and uplinking facility in the campus under national beam coverage of ISRO satellites, connecting numerous classroom end users. Internet bandwidth is also used as an alternative option. IIRS has successfully conducted 14 such courses so far with participation of over 20,000 students from 222 institutions. This programme can be received live using either one of the options (i.e. (i) A-VIEW e-learning tool developed by Amrita University in internet environment with login permission, (ii) Satellite Interactive Terminal (SIT) Classroom facility at university with LMS S/W tool (i.e. Blackboard). Course participation has increased with the option of A-VIEW software as it has also enabled participation of many who do not have the SIT facility.
