I am submitting summary report of Outreach Programme. Please accept it.

- 1. Name of Programme:** Basic of RS, GIS & GNSS

**2. Duration:** 21.8.17 to 1.12.17 **Total Days:** 102

**3. Number of enrolled students:** 26

**4. Name of Coordinator:** Dr. Telore Namdev Vasant

**5. Name of Resource Persons:** i) Er. Ashutosh Bhardwaj ii) Dr. P.K.C. Ray  
iii) Dr. D. Mitra

**6. Objectives of the Programme:**

  - To know basic concepts of Remote Sensing.
  - To know basic concepts of GIS.
  - To study basic concepts of GNSS.

**7. Outcome of the Programme:**

  - Participants become aware of basic concepts of Remote Sensing.
  - Participants become aware of GIS.
  - Participants become aware of applications of GNSS.

## About IIRS

Indian Institute of Remote Sensing (IIRS), a unit under Indian Space Research Organization (ISRO) Department of Space, Government of India is a premier Training and Educational institute set up for developing trained professionals in the field of Remote Sensing, Geoinformatics and GNSS Technology for Natural Resources, Environmental and Disaster Management. Formerly known as Indian Photo-interpretation Institute (IPI), founded in 1966, the institute boasts to be the first of its kind in entire South-East Asia. While nurturing its primary endeavor to build capacity among the user community by training mid-career professionals, the institute has enhanced its capability and evolved many training and education programmes that are tuned to meet the requirements of various target user groups in the society, ranging from fresh graduates to policy makers including academia.

The training and education programmes at IIRS includes the short duration customized courses, PG Diploma, Master's Degree (M.Tech and M.Sc.) in various disciplines. IIRS also conducts distance learning programmes under IIRS Outreach Activity.

## IIRS Outreach Programme

IIRS Outreach Programme focusses on strengthening the Academic and User Segments in Space Technology & Its Applications using Online Learning Platforms. IIRS distance learning program was initiated in 2007 with the participation of twelve universities in India. Till date, IIRS has successfully conducted 22 programs through live and interactive classrooms (also known as EDUSAT programme) and also launched five online courses under e-learning programme. Currently IIRS distance learning programme is being conducted through following modes:

1. Live and interactive classroom sessions (<http://lsp.iirs.gov.in>)
2. E-learning based online courses (<http://elearning.iirs.gov.in>)

### Live and Interactive classroom

The use of Remote Sensing, Geographical Information System, Global Navigation Satellite System and associated geospatial technologies is increasing rapidly, creating an urgent demand for trained manpower. The live and interactive mode of distance learning is enabled through Internet and A-view software platform developed by Amrita e-learning Lab in collaboration with Ministry of Human Resource Development (MHRD) Government of India. The programs are available through Internet without any cost to the user. The live and interactive sessions will be conducted by experts from IISR-ISRO and other knowledge institutions. IIRS has successfully conducted 22 such courses so far with participation of over 46590+ participants from 625+ academic institutions, government departments and industry. The beneficiaries of the programme may include:

- ❖ Central/State/Private Universities & Academic Institutions;
- ❖ Central & State Government Organizations/Departments;
- ❖ Research Institutes;
- ❖ Geospatial Industry;
- ❖ NGOs.

IIRS also conducts various theme oriented online courses and monthly webinars on recent topics on geospatial technologies and its applications. Users are encouraged to actively participate on these programs. For more detail please visit IIRS official website- [www.iirs.gov.in](http://www.iirs.gov.in)

## Course Announcement

IIRS announces four courses commencing from August 21st, 2017

- ❖ **Remote Sensing and Digital Image Analysis (21/08/2017 to 15/09/2017): Basic Principles of Remote Sensing, Earth Observation Sensors and Platforms, Spectral Signature of different land cover features, Image Interpretation, Thermal & Microwave Remote Sensing, Digital Image Processing: Basic Concepts of Rectification and Registration, Enhancement, Classification and accuracy assessment techniques.**
- ❖ **Global Navigation Satellite System and Geographical Information System (25/09/2017 to 10/11/2017): Introduction to GPS and GNSS, receivers, processing methods, errors and accuracy, GDB, databases, topology, spatial analysis and open source software.**
- ❖ **RS and GIS Applications (13/11/2017 to 01/12/2017): Agriculture and Soil, Forestry and Ecology, Geoscience and Geo-hazards, Marine and Atmospheric Sciences, Urban and Regional Studies and Water Resources.**
- ❖ **Basics of Remote Sensing, GIS and GNSS (21/08/2017 to 01/12/2017): Comprehensive course consisting of above three courses.**

The participants can register for individual course of their choice or the entire Programme.

## Target Participants

- ❖ Student of Undergraduate and Postgraduate courses (any year);
- ❖ Technical/ Scientific Staff of Central/ State Government Ministries/ Departments;
- ❖ Faculty / Researchers at university / institutions.

## Course Study Material

Course study materials such as lecture slides, video recorded lectures, open source software, data & handouts of demonstrations, etc., will be made available through IIRS ftp site (<http://ftp.iirs.gov.in>) Video lectures will also be uploaded on YouTube Channel (<http://www.youtube.com/user/educator2004>).

## Course Fee

There is no course fee.

## Course Registration

Course updates and other details will be available on URL: <http://www.edu.iirs.gov.in>

- ❖ To participate in the program, organizations/universities/departments/ Institutes have to identify a Coordinator at their end. The coordinator is required to register his/her Institute as nodal centre at ([http://elearning.iirs.gov.in/edusat\\_lms/coordinator\\_registration.php](http://elearning.iirs.gov.in/edusat_lms/coordinator_registration.php)).
- ❖ All the participants have to register online through registration page ([http://elearning.iirs.gov.in/edusat\\_lms/student\\_registration.php](http://elearning.iirs.gov.in/edusat_lms/student_registration.php)) by selecting his/her organization as nodal centre.
- ❖ The Coordinator is required to approve the participants from his/her institute for each course.

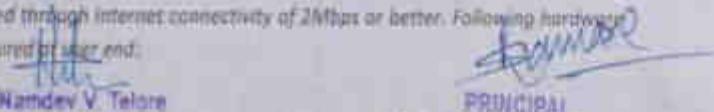

## Course Funding & Technical Support

The programme is sponsored by Indian Space Research Organization, Department of Space, Government of India and is conducted with due technical support from Amrita Virtual & Interactive E-learning World (A-VIEW).

## Programme Reception

Programme can be received through internet connectivity of 2Mbps or better. Following hardware and software set-up is required at user end.

Hardware Requirements:

  
Dr. Namdev V. Telre  
Coordinator  
IIRS Outreach Programme Dehradoon

  
Rajiv Srivastava, Principal  
Amrita School of Management  
Amritapuri, Kerala, India

- ❖ High-end Computer/Laptop (Windows OS);
- ❖ Good quality web camera (optional).
- ❖ Headphone with Microphone (optional) and Speakers;
- ❖ Large Display Screen (Projector or TV).

**Software and Internet Requirements:**

- ❖ Desktop based: A-VIEW software (free to download from [www.aview.in](http://www.aview.in) or IIRS ftp link: <ftp://ftp.iirs.gov.in>)
- ❖ Online live access through <http://live.iirs.gov.in> with free registration.

**Connectivity & Other configurations:**

- ❖ NKN or any other high speed internet facility (preferably without firewall, with minimum of 2 Mbps bandwidth)
- ❖ Network requirements: Port 80 and RTMP (port 1935) protocol should be unblocked from user's computer and Firewall.

**Note:** Participating institutions have to bear total expenses for establishment of the classroom facility.

### Award of Certificate

**Working Professionals:** Based on 70% attendance and submission of assignments.

**Students:** Based on 70% attendance and online examination.

### Feedback Mechanism

The participants and participating organizations are invited to attend annual IIRS User Interactive Meet (IUM) at IIRS Dehradun. The participants can submit their feedback online through IIRS e-learning portal. Feedbacks are critically analyzed and implemented in next courses.

Outreach Programme Feedback Session during  
IIRS User Interaction Meet (IUM)-2017

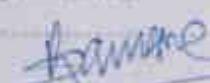

IIRS received two national awards for excellence in training for outreach and e-learning programme by Department of Personnel & Training (DoPT), Govt. of India in collaboration with United Nations Development Programme (UNDP).

**Sub: Announcement of 23<sup>rd</sup> IIRS Outreach Program on "Basics of Remote Sensing, GIS and GNSS" commencing from 21 August 2017.**

Dear Sir/ Madam,

As you aware that the Indian Space Research Organization (ISRO) has a vibrant Earth Observation (EO) programme with many satellite missions launched during last 50 years. The Indian Institute of Remote Sensing (IIRS) is a premier Institute of ISRO engaged in training, education and capacity building on use of geospatial technology for natural resources monitoring and disaster management since last five decades. The Institute has so far conducted 22 Satellite and internet based Outreach Programmes, benefitting more than 49,458 participants from 631 Indian universities/institutions/user Departments/user ministries in India.

To promote the full potential of space based geospatial technologies and its use, IIRS announces 23rd Outreach Programme on "Basics of Remote Sensing, GIS & GNSS" commencing from August 21, 2017 to December 01, 2017. The Programme consists of three courses namely Remote Sensing and Digital Image Analysis (August 21 - September 15, 2017), Global Navigation Satellite System (September 25 - November 10, 2017) and Geographical Information System and RS and GIS Applications (November 13- December 01, 2017). The participants can register for individual course of their choice or the entire programme also.

It is a unique opportunity to learn directly by devoting one and half hours on each day from the place of stay of the participant. The Programme can be attended without any fee and will be available freely live through internet by utilizing freely available A-view software ([www.aview.in](http://www.aview.in)). This programme is sponsored by Department of Space, Government of India for capacity building and skill development in the area of geospatial technology and its applications. After successful completion of the programme the participants will be awarded with certificate from IIRS, ISRO.

The programme is scheduled during 1600 Hrs. - 1730 Hrs. and will be conducted 4/5 days in a week. A copy of the announcement brochure and schedule of this programme is forwarded herewith for your kind perusal and also for wider circulation in your organisation. The programme/course is open to UG & PG students/researchers/scientific/technical staff and interested individuals. We need your support for wide publicity and maximum participation from your organisation.

Further details of the programme are enclosed with this letter. You may also visit IIRS website <http://idp.iirs.gov.in> for more details.

With regards and best wishes,

(A. Senthil Kumar)

I am submitting summary report of Outreach Programme. Please accept it.

**1. Name of Programme:** Hyperspectral Remote Sensing and Its Applications

**2. Duration:** 19.2.2018 to 13.03.2018 **Total Days:** 24

**3. Number of enrolled participants:** 04 **Number of qualified participants:** 04

**4. Name of Coordinator:** Dr. Telore Namdev Vasant

**5. Name of Resource Persons:** i) Dr Anil Kumar ii) Dr. P.K.C. Ray  
iii) Shri Vinay Kumar

**6. Objectives of the Programme:**

- i. To know basic concepts of Hyperspectral Remote Sensing (HRS).
- ii. To study applications of HRS.

**7. Outcome of the Programme:**

- i. Participants become aware of basic concepts of Hyperspectral Remote Sensing.
- ii. Participants become aware of applications of HRS.

Indian Institute of Remote Sensing (IIRS) is a premier Institute of ISRO which is engaged in training, education and capacity building on use of geospatial technologies for natural resources monitoring and disaster management support services in the country since last five decades. The institute has so far conducted 28 Satellite and Internet based Outreach Programmes, benefiting more than 82,000 participants from 728 Indian universities/institutes/user Departments/user ministries in India. We have now the pleasure of announcing the 29<sup>th</sup> IIRS Outreach Programme targeted to working professionals and students on "Hyper Spectral Remote Sensing and its Applications" commencing from February 19<sup>th</sup>, 2016. This online programme will provide a unique opportunity to the learners to enhance their knowledge by attending the course at their respective working places.

Hyperspectral remote sensing deals with measurements in a large number of narrow spectral bands over a contiguous spectral range. Because of its ability to detect narrow absorption features hyperspectral data are related to specific vegetation physio-chemical characteristics, soil physical and chemical properties, mineral composition and snow characteristics, mapping tree species, recognizing invasive plants, and identifying key volcanic features.

However, because of presence of a large number of bands, hyperspectral data needs different analysis approach including feature reduction, feature selection, removal of noise, detection of absorption features, advance classification techniques. This course will make the participants aware about hyperspectral remote sensing, hyperspectral data processing and its applications. This course will have thirteen sessions. First to eighth sessions will mainly be focused on topics related to Hyperspectral remote sensing, ground spectro-radiometer and processing techniques, while ninth to thirteenth sessions will focus on application of hyperspectral data in five application areas.

### IIRS Outreach Programmes

The IIRS outreach programme, which started in 2001 with 12 universities, currently has over 500 new partner organisations. Currently, IIRS organises 270 outreach programmes across India, including IIRS-DRDO. The beneficiaries of the outreach programme include:

- Governmental and academic institutions
- Training Academies in areas of disaster management
- Agri-Digital measurement
- Central & State Government Departments
- Research Institutes in Remote Sensing and Earth Sciences
- International Institutions
- NGOs

### Feedback Mechanism

IIRS has conducted its activities in 2001, 2002, 2003, 2004, 2005, 2006, 2007 and 2008 to take Feedback from participating centres to improve the quality of future courses.

### Awards

IIRS has received several awards for excellence in training, research and development programmes. Among 17 National honours and recognitions in training received until April 2002-2003 in New Delhi by Department of Personnel & Training (DPT), Govt. of India in collaboration with Indian Space Research Programme Council.

### About IIRS

Indian Institute of Remote Sensing (IIRS) under Indian Space Research Organisation (ISRO), Department of Space, Ministry of Science and Technology, Government of India, is a premier Training and Education Institute set up for developing trained professionals in the field of Remote Sensing, Geo-informatics and space Technology for Space Resources, Environment and Disaster Management. It is mainly located at Indian Space Research Organisation (ISRO), founded in 1969. The Institute located to be the first of its kind in entire South East Asia. While retaining its primary endeavour to build capacity among the user community by training mid-career professionals, the Institute has enhanced its capability and initiated many training and education programmes that are suited to meet the requirements of various target groups, ranging from fresh graduates to policy makers including diplomats.

IIRS also conducts a training programme on Remote Sensing and Geo-information Science (<http://learning.ignited.in>)

1. Name of Programme: RS & GIS applications in Water Resources.

2. Duration: 16.4.2018 to 27.04.2018

Total Days: 13

3. Number of enrolled students: 01

4. Name of Coordinator: Dr. Telore Nandev Vasant.

5. Name of Resource Persons: (i) Dr. S.P. Aggarwal (ii) Dr. Poonam S Tiwari  
(iii) Dr. Vaibhav Garg

6. Objectives of the Programme:

- i. To know concepts of Remote Sensing.
- ii. To know concepts of GIS.
- iii. To study applications of RS – GIS in water resources.

7. Outcome of the Programme:

- i. Participants become aware of basic concepts of Remote Sensing.
- ii. Participants become aware of GIS.
- iii. Participants become aware of applications of RS – GIS in water resources.

**Subject:** Announcement of 31<sup>st</sup> IIRS Outreach Program on "RS & GIS applications in Water Resources" commencing from April 16-27, 2018.

Dear Sir/ Madam,

पृथ्वी अवलोकन (ई.ओ.) भारतीय अन्तरिक्ष अनुसंधान संस्थान का एक महत्वपूर्ण कार्यक्रम है जिसके अंतर्गत प्रियों द्वारा प्राप्त विभिन्न संसाधनों का उपयोग प्रावित्रिक संसाधन व अवस्था प्रबंधन में क्रिया जाता है। भारतीय सूदूर संवेदन संसाधन (भा.सु.सं.स.) भूस्थानिक प्रौद्योगिकी के अन्तर्गत विद्युत, प्रशिक्षण तथा क्षमता संवर्धन को समर्पित एक महत्वपूर्ण संस्थान है। इस संसाधन द्वारा अब तक 30 उपर्याएँ एवं इटरनेट आधारित अनुटरीय प्रावित्रिक संसाधन उपलब्ध किए जा रहे हैं। इन प्रावित्रिकों से सामग्री 730 भारतीय विद्युतिकालों/ संसाधनों के बारें 62,000 से अधिक प्रतिमारी आधारित है। इस कार्यक्रम को अंग्रेजी भाषा में साथ ही 31<sup>st</sup> अप्रैल-2018 भारतीय अनुसंधान अनुटरीय कार्यक्रम की प्राप्ति करने की शोधा करते हैं। 16 अप्रैल, 2018 से प्रारम्भ होने वाला यह कार्यक्रम "सूदूर संवेदन, भौतिकीय तुच्छन प्रणाली का जल संसाधन प्रबंधन में अनुप्रयोग" पर आधारित है। यह कार्यक्रम कार्यरत फोरम तथा कार्यों लिए दीक्षित है। यह कार्यक्रम प्रतिमारीयों को आपने कार्यस्थल पर दूषि द्वारा हान के सम्बन्ध करने का एक अनुष्ठा आसान प्रदान करेगा।

The Indian Space Research Organisation (ISRO) has a vibrant Earth Observation (EO) programme since last 50 years with launch of several satellite missions. The Indian Remote Sensing Satellite (IRS) series of satellites provide space based information for monitoring and management of natural resources and Disaster Management Support. The Indian Institute of Remote Sensing (IIRS) is a premier institute under ISRO engaged in training, education and capacity building on use of geospatial technology for natural resources monitoring and disaster management since last five decades. The institute has so far conducted 30 Satellite and Internet based Outreach Programmes, benefitting more than 63000 participants from 730 Indian universities/ institutions/User Departments/user ministries in India. To promote the use of geospatial technology, IIRS announces the 31<sup>st</sup> IIRS Outreach programme on "RS & GIS applications in Water Resources" commencing on April 16, 2018. The course is targeted to working professionals and students and will provide a unique opportunity to the learners to enhance their knowledge by attending the course at their respective working places.

जल के विभिन्न संसाधन पृथ्वी पर जीवन हेतु आवश्यक है और जलवायी की द्वारा किये जाने याते विकास कार्यों के प्रतिकूल प्रभावों के प्रति भी संवेदनशील है। इसलिये भारतीय में जल प्रदूषण मात्रा में उत्पत्ति है, परंतु इसके वितरण में अद्यतेक एवं अस्थायी विविधताएँ हैं। अब जल संसाधन प्रबंधन हेतु सभी प्रकार के जल संसाधनों (हाइड्रोलैगिक जल के घटक) की लगातार नियन्त्रणी जावेगी। भूस्थानिक प्रौद्योगिकी हाइड्रोलैगिक जल के गतिशील प्रौद्योगिकी जैसे यार्म, मुद्रा यदी, अव्याह एवं विद्युत जलप्रदान इकै और यानी संबंधित जलपदा के गुणात्मक और मात्रात्मक गणनितयां एवं नियन्त्रणी हेतु उपयोग और स्थायी आधारित सूदूर संवेदन एवं प्रौद्योगिक सूक्ष्म प्रावित्रिक प्रौद्योगिकों में नवीनतम प्रगति का एक विहृतान्तर्कान प्रदान करेगा। इस संसाधन प्रबंधन के संदर्भ में हर अधिकारी तकनीकीय की उपयोगिता को बढ़ाव देते हुए इन्हें फोरम व्यवस्था/एवं उद्योगों के लिए यह कार्यक्रम अत्यधिक लक्षित कर रहा है।

All the sources of water are important for survival of life on this planet and are vulnerable to adverse impacts of anthropogenic activities. Though abundant water is available in our country, however there is large spatial, temporal variations in its distribution. Hence, continuous monitoring of all the sources of water (components of Hydrological cycle) becomes necessary for Water Resources Management. Geospatial technologies are particularly suited for qualitative and quantitative mapping and monitoring of dynamic components of hydrological cycle like rainfall, soil moisture, runoff, evapotranspiration, snow cover, etc. along with water related disasters. This course will provide an overview of the latest advances in satellite and terrestrial based Remote Sensing and GIS technologies for quantitative assessment and monitoring of components of hydrological cycle and their use in Water Resources Management. The course is therefore

### IIRS Outreach Programme

The IIRS outreach programme, which started in 2007 with 22 universities, has since grown exponentially, about 270 universities / institutions spread across India are associated with IIRS. The main objective of the programme being:

- Model Resource Professionals
- State, National, International / Inservice Teachers / Training Academics
- Central / State Government Officials/Scientists
- Research Institutes
- Geospatial Institutions
- NGOs

### Feedback Mechanism:

IIRS has conducted feedback and review during IIRS joint interaction meet to take feedback from participating institutions on implementation of IIRS activities.

Feedback Interaction Meeting IIRS 2017 (Courtesy: IIRS 2018)

### Awards

IIRS has received national awards for excellence in training for research and training programme during 2017. National Award for Excellence in Training conducted during April 2017, 2018 as Best State by Department of Science & Training (DST), Govt. of India in collaboration with Indian Space Research Organisation (ISRO).

### About the Course

More than 75% of Earth's surface is covered with water (about 2.58 x 10<sup>12</sup> km<sup>3</sup> of total water available on the earth) is stored in the form of fresh water in ice caps, Glaciers, Permanent Snow, Rivers and lakes, Ground Water, Soil moisture, Atmospheric water. All these forms of fresh water are important for survival of life on this planet, and are vulnerable to adverse impacts of anthropogenic activities. Though, abundant water is available on our planet, however there is large spatial, temporal variations in its availability. Hence, continuous monitoring of all the sources of water, assessment of hydrological cycles becomes necessary for Water Resources Management. Geospatial technologies are prominent today for qualitative and quantitative mapping and monitoring of different components of hydrological cycle namely, soil moisture, rainfall, precipitation, snow cover, etc., using space based remote sensors. This course will provide an overview on the IIRS' advances in Satellite and Ground based remote sensing and GIS technologies for monitoring assessment and modelling of components of hydrological cycle and their application in Water Resources Management. The course is designed of specific interest for the professionals, researchers and students interested in learning tools of Water resource management in the context of Water Resources Management.

### Curriculum

- Overview of IIRS' approaches and Resources
- Selected case studies and selected institutional experiences
- Surface water body and snow cover monitoring
- DEM applications in water resources
- Hydrologic water management
- Waterbody management
- Participatory modeling in pastoral environment
- Flood mapping, monitoring and modeling
- Impact of climate change on water resources

### About IIRS

Indian Institute of Remote Sensing (IIRS) under Indian Space Research Organisation (ISRO), Department of Space, Govt. of India is a premier Training and Educational Institute set up for developing trained professionals in the field of Remote Sensing, Geo-informatics and Space Technology for Space Applications, Environment and Disaster Management. Previously known as Indian Photo-investigation Facility (IPF), founded in 1985, the Institute aims to be the first of its kind in entire South-East Asia. While carrying its primary function to train capacity along the user community by raising well-qualified professionals, the institute has enhanced its capacity and provided many training and education programmes that are aimed to meet the requirements of various target areas, ranging from basic programmes to apply theory including academic.

IIRS also conducts a training programme on Remote Sensing and Geo-informatics (RSGI) covering 200 days.

### Target Participants

- The course is designed for professionals from Central / State / District Administrations / Water Resources / Environment management and planning. Participants will include water resource experts, scientists and managers engaged in research in water resources.
- The course participants can be fully sponsored by their university / institution and application can be forwarded through concerned state ministries / departments / central water affairs organisations (e.g. CWC, IWRM, CWC, IWRM) or any other concerned institutions on higher level. National Training Institute (NTI) can also participate using a NTI ID number.

### Course Study Material

Course study materials like article links, video recorded lectures, open access software & libraries of publications, etc. will be made available through IIRS YouTube video lectures with due permission on YouTube Channel.

## **Course Announcement**

IIRS announces four courses commencing from August 2018, 2018. The courses are available as a Basic comprehensive course or as individual modules.

- ❖ Basics of Remote Sensing, GIS and GISS (20/08/2018 to 16/11/2018): Comprehensive course consisting of above three courses.
- ❖ Remote Sensing and Digital Image Analysis (20/08/2018 to 14/09/2018): Basic Principles of Remote Sensing, Earth Observation; Sensors and Platforms; Spectral Signature of different land cover features, Image interpretation, Thermal & Microwave Remote Sensing, Digital Image Processing; Basic Concepts of Rectification and Registration, Enhancement, Classification and accuracy assessment techniques.
- ❖ Global Navigation Satellite System and Geographical Information System (17/09/2018 to 26/10/2018): Introduction to GPS and GNSS, receivers, processing methods, errors and accuracy, GIS, databases, topology, spatial analysis and open source software.
- ❖ RS and GIS Applications (29/10/2018 to 16/11/2018): Agriculture and Soil, Forestry and Ecology, Geoscience and Geo-hazards, Marine and Atmospheric Sciences, Urban and Regional Studies and Water Resources.

The participants can register for individual module of their choice or the entire certificate course.

## **Target Participants**

- ❖ Student of Undergraduate and Postgraduate courses (any year)
- ❖ Technical/ Scientific Staff of Central/ State Government Ministries/ Departments
- ❖ Faculty / Researchers at university / institutions

## **Course Study Material**
