## Study Tour Report

2017-2018

### Introduction

The purpose of educational trip was to provide students with practical and theoretical experience of field work. The 1<sup>st</sup> year of class of zoology students visited the Yamai hill for their annual educational tour on Jan/2018. The tour offers study of biodiversity of Aves in Aundh. The students of zoology department able to understand biodiversity and its relation with environment. Adaptations of birds can be well understood in their habitat only.

### Objectives of the Study Tour

The objectives of the study tour are as follows:

1. To increase interest of students in zoology.
2. To enhance the knowledge about the Aves.
3. To study adaptation and habits of local birds.

### Analysis of Study Tour

As per syllabus of Shivaji university Kolhapur for F.Y.B.Sc. we study the local ecosystem. We visit Yamai hill area for bird watching. Study tour give such opportunity of observing different animals, birds and their habitat that is their natural home. We observed and study the local birds. The habits like feeding, swimming, flying, group behavior, alertness are seen in this tour.

## Outcomes of Study Tour

Outcomes are as follows:

1. To study birds in their natural habitat.
2. To classify birds.
3. To understand the correlation between manmade activities and bird biodiversity.

### Appendix-1

104 Students participated in study tour:

DEPARTMENT OF ZOOLOGY

STUDY TOUR REPORT 2017-18

**Introduction :-**

The purpose of the Educational trip was to provide students practical and theoretical experience of field work. The B. Sc. II Zoology students visited Malvan for annual educational tour in 2017-18. The tour offers a rare opportunity for the student to learn natural habitat of the Animals in the field.

**Objectives of the study tour :-**

- To study the marine animals in their natural habitat.
- To visit place of biological interest.
- To study aspects of applied zoology.
- To study the inter relationship between the animals and environment.
- To create interest, curiosity, in students.

**Analysis of study tour :-**

As per syllabus of Shivaji University Kolhapur for B.Sc. 2 we visit to marine water ecosystem of Malvan.

Day on 21<sup>st</sup> Dec. and 22 Dec. our Zoology department arrange educational tour for students of B. Sc part 2 .Prof. Pol S. H. ,Prof. Mulla.A.A. and students. Tour gives us such opportunity of observing and studying different animals and their habits in their habitat i.e. their natural home.

We observe and study the fishes and marine animals malvan-sindhudurg . The habits like swimming group behavior , alertness are seen in this tour . We also study some fishes , and marine animals which are caught by local fisherman. Some molluscs like Pila globosa bivalves. Sepia are also present on marginal area of waterbody. some arthropods and like crab, prawn, lobstr are also observed. Total 45 students visited at Malvan in 2017-18

Outcomes of study tour :-

- Students learn from observation and experience of field work.
- Students observe natural habitat of birds, reptilian and amphibian animals.
- Student develop skill regarding organization, management, decision making and problem solving
- Students observe the birds migrated in search of food and reproduction.
- Students also observe different types of Fishes.
