## Study tour report

B.Sc.II 2015-16

Department of Botany organized a field visit for B.Sc. II students as a part of curriculum at Kolhapur, Malakapur and panahala on 9.3.2016. In this students and 3 teachers are involved.

### The objectives of the field visit

1. To understand natural phenomenon, manipulation of nature and environment in the benefit of human beings.
2. To study different life forms of plants in the nature.
3. To make the students aware of natural resources and environment.

That place is biologically very important as a part of Western Ghats. First we visited to Malakapur, panahal, Kolhapur the different plants few of them they are rare endangered and critical, some of them medicinally useful, some of them they are exotics.

Later on we visited Shivaji university visit to Botany departments. How natural resources use sustainably.

### Outcomes

1. Students achieve the knowledge about the different plants found in these localities.
2. Students make the list of plants found in these localities, note important unique feature of plants and their medicinal uses.
3. Students achieve the knowledge of sustainable agriculture.

After visiting these two localities we safely return to Aundh.

Please accept the same.

Thanking you.

**DEPARTMENT OF BOTANY**

**Study Tour Report –2015-16**

**Introduction:**

The purpose of the study tour was to provide students with practical and theoretical experience of field work. B. Sc. -III Botany students visited for their annual one day study tour on dated 19/03/2016. The tour offers an opportunity for the students to learn about the natural plant life in Maharashtra as well as current issues regarding conservation of plant vegetation. The students of Botany department are able to understand plant life in their natural habitats.

- 1) To visit the places of botanical interest
- 2) To study the natural vegetation and different ecosystems
- 3) To study habits and habitats of terrestrial and aquatic plants
- 4) To study wild and rare plants
- 5) To study the plants in botanical garden
- 6) To increase an interest among the students about plant sciences

**Analysis of Study Tour:**

During the trip, the students were visited Malakapur, Panhala and Kolhapur and on route areas in the Maharashtra. The students of department collected primary as well as secondary data as needed and fulfill the necessity of objectives of study tour. Various groups of student were observed various kinds of plants and distributions of plants and their ecological status. Students had note down the names of different plants observed in the fields. The students also observed on route villages and mode of living, transportation facility, poverty etc.

Data collected from study tour had processed and made

**broad conclusions as follows:**

Plant life in their *in situ* and *ex-situ* habitats should be preserved

Rare and endangered should get priority in conservation program.

The growth of economy of on route villages depends upon the agriculture and forest products. There are main sources of income.

The students became curious by observing plant life in natural environment and helped them a lot in understanding different aspects of plant life

**Outcomes of Study Tour:**

The students became curious by observing plant life in natural environment and helped them a lot in understanding plant life

The students learnt from observation, experience and field work.

Observed the life style and living of local residents.

Developed the practical skills regarding organization, management, decision making and problem solving and conservation of nature.
