DEPARTMENT OF ECONOMICS**

**Industrial Visit Report – 2019-20**

**Introduction:**

Industrial visit is considered as one of the tactical methods of teaching. The main reason behind this industrial visit was to let students know things practically through interaction, working methods and employment practices. Moreover, it gives exposure from academic point of view. Main aim of industrial visit is to provide an exposure to students about practical working environment. They also provide students a good opportunity to gain full awareness about industrial practices. Industrial visit has its own importance in a career of a student. It is considered as a part of college curriculum and objectives of industrial visit is to provide students an insight regarding internal working of companies. We know, theoretical knowledge is not enough for making a good professional career. With an aim to go beyond academics, industrial visit provides student a practical perspective on the world of work.

**Objective of Industrial Visit:**

The main objective of industrial talk and visit is to enable the students to better visualize what they have learned in classroom to the real industrial situations. Students also have the opportunity during the industrial visit to see large-scale industrial processes and equipments as well as real economical practices. The expected outcome of these activities is that student engagement in learning can be improved by outside of the classroom activities.

### **Ground Report of Industrial Visit:**

Department of Economics organizes the industrial visit to Vardhan Agro Industry Processing Ltd., Trimali, Dist- Satara. Total 18 students and 2 teachers are participating in this industrial visit. The Vardhan Agro Industry Processing Ltd produces the Sulphur free sugar and Powder of gud. Sulphur-free sugar is cleaned by a process that uses phosphoric acid and phosphate salts instead of sulphur. This process has many advantages over the conventional one. In addition to being a safer and healthier option, this is an eco-friendly process that also enhances soil fertility. Students observe the industry and its function. Lastely students discuss with management and ask some question related to economics as well as environmental issues.

### **Student learning outcomes of the visits and talks may include the ability to:**

- 1) Improve interpersonal skill by communicating directly with industrial personnel.
- 2) Aware of the roles investment and output of industries.
- 3) Aware of the impacts of industrial processes on health, safety, environment and society.
- 4) Review the employment and income generation by Vardhan Agro Processing Ltd.
- 5) We know building relationship with companies always will always help to gain a good job in future. This visit gained a combined knowledge about both theoretical and practical.
