Workshop Report

Raja Shripatrao Bhagwantrao Mahavidyalaya, Aundh

One day Workshop on IPR

Report

One day workshop on Intellectual Property Rights was organized on 18/12/2019. The chief guest was Dr. H. B. Patil, Associate professor, Arts, Commerce and Science College, Palus. In his lecture he elaborately explained about Intellectual property, concept and its scope, importance and Indian Patent law.

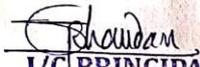

In his speech Dr. Patil told that Intellectual property is so broad that it has many aspects. It stands for groupings of rights which individually constitute distinct rights. However, its conception differs from time and it to time. It is subject to various influences. The change in information technology, market reality and generality has affected the contents of intellectual property. For instance, in olden days-because of religion creation of life, say plants or animals were not protected. Thus, defining IP is difficult as its conception changes. It is diverse, challenging and has application in own day today life.

Intellectual property, as a concept, "was originally designed to cover ownership of literary and artistic works, inventions (patents) and trademarks". Intellectual property, very broadly, means the legal property which results from intellectual activity in the industrial, scientific and artistic fields.

Principal Dr. Bhandare S. J. presided over the function and Dr. Kore S. M. expressed vote of Thanks. All the faculties from other departments were present for the programme.
