Marriage is an important event of life. However, marriage has many aspects which many people are not aware of till they experience it. Men and women both have different physical, emotional and sexual needs. Even, their way of thinking and perceiving usually differs from each other. Pre-marriage counselling is a therapy which helps to prepare the couples mentally for marriage. The counselling helps to make sure that you and your spouse can have a strong and healthy relationship throughout your life.

Dr. Sushama Bhosale Hon. speaker of the programme has delivered a wonderful counselling lecture in the workshop. She explained the topic with various real life examples and clears all aspects of counselling which helps to improve the communications between the partners, set realistic goals for marriage, plan for the future, and decide the ways in which your lives will be merged.
