Study tour report

B.Sc.I 2021-22

Department of Botany organized a field visit for B.Sc. I students as a part of curriculum at Kartikswami on 25.06.2022 In this 71 students and 2 teachers are involved

The objectives of the field visit

1. To understand natural phenomenon, manipulation of nature and environment in the benefit of human beings.
2. To study different life forms of plants in the nature.
3. To make the students aware of natural resources and environment.

That place is biologically very important as a part of Eastern Ghats. First we visited to Platue observed the different plants few of them they are rare endangered and critical, some of them medicinally useful, some of them they are exotics.

Later on we visited to hilly area. How natural resources use sustainably.

Outcomes

1. Students achieve the knowledge about the different plants found in these localities.
2. Students make the list of plants found in these localities, note important unique feature of plants and their medicinal uses.
3. Students achieve the knowledge of sustainable agriculture.

After visiting these two localities we safely return to Aundh.

Please accept the same.

Thanking you.
