Department Of Zoology (2021-22)

Notice

Date: 19/01/22

The faculties of Zoology Department are requested to attend the meeting on 19/01/22, in the department, at 2.30 p. m., to discuss some important issues.

Agenda:

- 1) Minutes of the last meeting
- 2) Discussion on Syllabus completion
- 3) To Plan study tour.
- 4) Any other important issue

Minutes of the meeting:

- 1) It was decided to prepare the record of slow and advance learners.
- 2) To prepare schedule of study tour and finalise the tour.
- 3) Counselling of slow learners should be improved.
- 4) As there was no any other issue, the meeting was concluded with vote of thanks.

Report on

Group Discussion (GD): "Misconceptions and Superstitions about snakes"

A session on 'Group Discussion' was conducted on the 30th of October 2021 at the Classroom, Department of Zoology. The Group Discussion was attended by 75 students from first year of B.Sc. The motive of the Group Discussion was to observe their personality and skills, ability to discuss on the given subject and to study views of students on given topic, to guide them on how to take part in Group Discussions.

The session opened with the 'Self Introduction' of students. Continuing with the training, Prof. Pol S.H. gave a topic to the students to involve into group discussion. The topic given was "**Misconceptions and Superstitions about snakes**". The students were given 5 minutes to think over the topic before beginning with the discussion.

The group discussion lasted for about 40 minutes. The highlights of the discussion are as follows:

1. Many students are aware about balance of ecosystem, food chain etc.
2. The group discussion was in Marathi and English both Languages.
3. There were few silent observers who didn't involve in discussion.
5. Students could highlight many important facts and figures pertaining to the topic.
6. There was an initiator who was also a dominator in the group.
7. Some students were unable to understand the topic properly.

I emphasized that performing a positive role will have a good impact on the interviewer. I also warned them to not to be involved in negative roles like

1. Remain uninterested
2. Attacker
3. Dominator and Clown

Prof. Pol S.H. suggested students to use facts, figures, definitions, statistics, shocking statements, short story or general statement in the discussion. I gave hints on how to enter a GD midway and ideas to silent members on how to enter a GD. I also gave importance on the non-verbal communication i.e. body language by which attitudes and feelings are communicated. Lastly I tried to draw attention of the students to summarize and conclude the GD highlighting all the important points' discussed by the group. Concluding the session I advised the students to read newspapers and enlist few local, national and global news each which shall help them to be aware of the current news in the world. After observing and listening the discussion of students, it was evident that the students are not aware about the do's and don'ts of the GD.

- **Highlighted opinions of students during discussion:**
 - 1. All superstitions about snakes must be eradicated.
 - 2. Snakes are important in balance of food chain and ecosystem.
 - 3. Snakes are naturally aggressive but it is for self protection.
 - 4 All snakes not poisonous hence they are not harmful.

PROJECT REPORT OF ZOOLOGY

DEPARTMENT

2021-22

According to the syllabus of Shivaji University, Kolhapur for B.Sc.- I we organized workshop on "Awareness Programme and Workshop for protection of sparrows" was organized on Monday 21st March 2022. Hands on activities for food, water and shelter of sparrows are a carried out from Monday 21st March to 21st April by students of class B. Sc. I. Projects of this work are submitted by 83 students.

Objectives of the Study Tour

The objectives of the study tour are as follows:

1. To increase interest of students in zoology.
2. To enhance the knowledge about the Aves.
3. To study adaptation and habits of local birds.
4. To create awareness about protection of sparrows.

Outcomes of Study Tour

Outcomes are as follows:

1. To study birds in their natural habitat.
2. To classify birds.
3. To understand the correlation between manmade activities and bird biodiversity.

Study Tour Report 2021-22

Introduction

The purpose of educational tour was to provide students with practical and theoretical experience of field work. The students of 2nd year class, Prof. Pol S. H. and Prof. Mulla A. A. of Zoology visited the Bhigwan Bird Sanctuary for their annual educational tour on 31st May 2022. The tour offers study of biodiversity of Aves specially migratory birds in Bhigwan Bird Sanctuary. The students of Zoology department able to understand biodiversity and its relation with environment. Adaptations of birds can be well understood in their habitat only.

Objectives of the Study Tour

The objectives of the study tour are as follows:

1. To increase interest of students in zoology.
2. To enhance the knowledge about the Aves.
3. To study adaptation and habits of local birds.
4. To study applied Zoology, implementation of scientific knowledge.

Analysis of Study Tour

As per syllabus of Shivaji University Kolhapur for S.Y. B.Sc. we study the Bhigwan Bird Sanctuary. We visit this Sanctuary for bird watching. Study tour give such opportunity of observing different birds and their habitat that is their natural home. We observed and study these birds. The habits like feeding, swimming, flying, group behavior, alertness are seen in this tour.

During return journey we also visit A.R.T. Institute Phalatan. (Appropriate Rural Technology Institute) This Institute has vision to serve as an instrument of rural development through application of scientific knowledge and technology and to improve the quality of life and standard of living of the rural inhabitants of India.

The mission of institute is to generate novel employment opportunities in rural areas with help of Innovative appropriate rural technologies. Resource

Person of this institute explain innovative appropriate rural technologies which are as follows:

- 1) Fuel briquettes from light Agro waste
- 2) Low- Cost Water Tank
- 3) Improved Cook Stoves (Chulhas)
- 4) Solar Dryer
- 5) Low- cost green house
- 6) Single barrel kiln for char powder
- 7) Compact biogas system
- 8) Sarai Cooking System
- 9) New Nursery Techniques
- 10) Farming on permanent raised beds

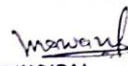

Outcomes of Study Tour

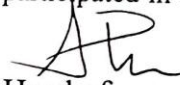

Outcomes are as follows:

1. To study birds in their natural habitat.
2. To classify birds.
3. To understand the correlation between manmade activities and bird biodiversity.
4. To study and discussed about generation of novel employment opportunities and application of scientific knowledge and technology

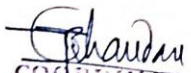

Appendix-1

20 Students participated in study tour. 18 Students are participated in field visit at Poultry Farm.
