Department of Physics

Program for slow and advance learners

After admission process the students are enrolled for slow and advance learners program. To identify the learning levels of the students unit tests are conducted. On the basis of the results students are given proper guidance to improve in their performance.

For slow learners extra lectures are arranged and personal guidance is given to the students and the students are also encouraged to take part in various activities.

For advance learners are encouraged to use the departmental library and provided the list of reference books for increasing their reading habit and their learning level.

CONCLUDING REMARK

Under scheme of assessment of learning levels of students, slow learners are passed in university examinations. Advance learners are performed well in university examinations and achieve good score in university examinations as well as participated in various competitions.
